able Info:

Backlog

of September 30, 2024, we had \$86.8 billion of remaining performance obligations ("revenue backlog"), primarily deferred as revenue. The estimated revenue backlog and timing of revenue recognition for these commitments is largely based on the estimated timing of revenue recognition for these commitments, with approximately half of the revenue backlog as revenues over the next 24 months with the remainder to be recognized thereafter. The backlog is primarily composed of contracts with an original expected term of one year or less and cancellable contracts.

Revenues

Our deferred revenue as of December 31, 2023 was \$5.0 billion, of which \$3.4 billion was recognized as revenues during the year ended December 31, 2023. Our deferred revenue is primarily related to our Financial Instruments.

Measurements

Assets Measured at Fair Value on a Recurring Basis

Our cash equivalents, and marketable equity securities are measured at fair value and classified within Level 1 and Level 2 of the fair value hierarchy.
